

Resume

I am Gabriel de Rezende Gonçalves, a 21-year-old software engineer who graduated from Pontifícia Universidade Católica de Campinas and took a technical course in Computer Science at ETEC Bento Quirino. I work as a full-stack developer, with advanced knowledge in languages, frameworks, and technologies such as JavaScript, React, Node.js, Vue.js, NoSQL, MySQL, PHP, and Laravel. In addition, I have experience in Flutter for mobile application development.
